

Ralph Lawrence Tampoc

Software Engineer

Experienced software engineer committed to enhancing software quality and optimizing delivery processes through a combination of technical expertise, leadership, and collaborative teamwork. Adept at system development with hands-on experience in VB.NET, C#.NET, .NET frameworks, Crystal Reports, and SQL, contributing to seamless IT support, troubleshooting, and operational stability.

Proficient in SAP FICO with a proven track record of providing functional support for key financial modules, including AP, AR, and AA. Skilled in SAP ABAP development, encompassing program enhancement, debugging, SQL integration, SAP Scripts, Adobe Forms, and object-oriented programming. A proactive learner eager to apply and expand these skills in a dynamic environment.
